Subchapter B-Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under scc. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 1010-Suspension Orders [Suspension Order S-468, Revocation]

NATIONAL SUPPLY CORPORATION

Suspension Order No. S-468 was issued against Joseph Goldberg and Sidney E. Goldberg, doing business as National Supply Corporation, effective December 28, 1943. A petition for rehearing was , filed by respondent, and on January 6, 1944, the Chief Compliance Commissioner directed that the case be reopened for further hearing and the admission of additional evidence, and the Chief Compliance Commissioner ordered a stay of execution of the suspension order. A further hearing was held before the Chief Compliance Commissioner, as a result of which on May 6, 1944, the Chief Compliance Commissioner directed that Suspension Order S-468 be revoked forthwith. In view of the fore-

going, It is hereby ordered, That: § 1010.468 Suspension Order S-468 be revoked.

PART 3289-RADIO AND RADAR

[Preference Rating Order P-133, Interpretation 1]

#### ELECTRONIC EQUIPMENT

The following interpretation is issued with respect to Preference Rating Order ·P-133:

Some things which cannot be bought under this order as maintenance, repairs or operating supplies: It appears that some persons who are entitled to use the priorities assistance given by Order P-133 for maintenance, repair and operating supplies have been applying those ratings for the purchase of items which are capitalized repairs, capital equipment or capital replacements. The following things are not items of maintenance, repair or operating supplies under Order

- 1. Recording or reproducing turntables.
- 2. Amplifiers.
- Microphones.
- Speech input consoles.
- Transmitters.
- Relay racks or cabinets. 6.
- Jack panels.
   Frequency monitors.
- 9. Antenna towers.

This is not an all-inclusive list of products which are not MRO items under P-133, but simply includes those things about which questions have been raised.

The ratings assigned by Order P-133 must not be applied for the purchase of the things listed above; and any P-133 ratings which have been applied to purchase orders for those items have been improperly applied and should be cancelled at once. This does not mean, however, that necessary parts to maintain or repair those things may not be purchased with P-133 ratings.

How to distinguish the business of radio communication or radio broadcasting from other businesses of the kinds described in paragraph (a) (4): Persons engaged in the business of operating and maintaining electronic systems for the distribution of sound which are not radio communication or radio broadcasting systems are entitled only to use the AA-5 rating assigned by paragraph (a) (4) of Order P-133. The question has been asked as to how to distinguish between these businesses. No person is engaged in the business of radio communication or radio broadcasting who has not been licensed by the Federal Communications Commission to operate a radio transmitter. No person who has not been licensed by the Federal Communications Commission to operate a radio transmitter may use the AA-1 rating assigned by paragraphs (a) (1) and (a) (2) of Order P-133 for the businesses of radio communication and radio broadcasting.

Issued this 12th day of May 1944.

PART 3290-TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-375]

#### WORK GLOVES

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of work gloves for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense: ·

§ 3290.336 General Conservation Order M-375—(a) Definitions. For the purpose of this order:

(1) "Work gloves" means any of the following gloves and mittens customarily graded as men's, women's and children's:

"Gloves" means both gloves and mittens.

(2) "Put into process" means the first cutting of material in the manufacture of gloves and mittens.

(3) All terms used in this order shall have their usual and customary trade meanings unless stated otherwise.

(b) General exceptions. The provisions of this order shall not apply to orders for the delivery of work gloves to the United States Army, Navy, Marltime Commission or War Shipping Administration, or to other persons pursuant to authorization by the Maritime Commission on Form WPB-646.

(c) General restrictions on processing and manufacturing of work gloves. (1) No person shall, after May 15, 1944, manufacture work gloves or put into process or cause to be put into process by others for his account any material for the manufacture of work gloves with:

- (i) Canton flannel other than 4 harness construction.
- (ii) Thumb seam welts or welts at thumb crotch seam, or thumb straps, on other than side split leather or grain leather construc-
- (iii) Pairs tacked, stapled or otherwise fastened together.
  - (iv) Rider tickets.
- (v) Imprints on hand portion other than manufacturer's trade mark.

(2) No person shall, after May 15, 1944, manufacture work gloves, or put into process or cause to be put into process by others for his account any material for the manufacture of work gloves, of any style, type and construction not listed in Schedule A of this order, or more numbers of any style than is specified in Schedule A.

Each person who manufactures work gloves or puts into process materials for the manufacture of work gloves shall, within 15 days after May 15, 1944, file with the War Production Board a list of the specific numbers of each style of gloves listed in Schedule A which he intends to produce. The numbers shall be listed in the sequence of Schedule A, and each number fully identified to conform with Schedule A. For example: only one number may be selected in Class 2 Men's Safety Cuff. The selection made should be stated in this form: "Class 2, Men's Safety Cuff, 8 oz. palm, 10 oz. lining, without turtle neck, white back, quilted." If this is the number selected no other number of this style may be made. No person may make any number not set forth on his list filed with the War Production Board, or change from the production of any number of any style set forth in his list to any other number of that style, unless he is authorized by the War Production Board in writing to do

(3) The War Production Board may on written application authorize the production and sale of work gloves, other than those enumerated in Schedule A, for specific occupational requirements.

(4) No person shall, after May 15, 1944, manufacture work gloves or put into process or cause to be put into process by others for his account any material for the manufacture of work gloves except in accordance with the specifications set forth in Schedules A and B.

(5) Exceptions. The provisions of paragraph (c) shall not apply to:

(i) Work gloves put into process or manufactured prior to May 15, 1944.

(ii) Work gloves made and sold to conform with state, county-and municipal safety laws, codes and regulations and in effect on May 15, 1944, and specifically requiring the use of work gloves made otherwise than as specified in this order.

(iii) Work gloves manufactured in the home except when made for sale or for a contractor or jobber or other per-

son who sells the work gloves.

(iv) Work gloves made from materials and supplies in the inventory of a glove manufacturer on May 12, 1944, or purchased by him prior to May 12, 1944, provided such materials and supplies are consumed in the manufacture of gloves before June 30, 1944. However, such gloves may be sold and delivered only before July 31, 1944.

(d) Restrictions on sales and deliveries. (1) No person shall sell or deliver work gloves which he knows or has reason to believe were manufactured or the material for which was put into process contrary to the provisions of paragraph (c) of this order.

(2) No manufacturer of work gloves may deliver work gloves packed less than

one dozen pairs to a package.

(3) No person shall sell, deliver or accept delivery of any hot mill flannel gloves, except upon a preference rated order, or pursuant to allocation or direction of the War Production Board. However, these restrictions do not apply to sales or deliveries of hot mill flannel gloves by an employer to his own employees, or by a retail establishment from its stocks on hand.

(4) Unless specifically authorized by the War Production Board, no person who purchases work gloves for distribution or sale to his own employees shall accept delivery of work gloves if by virtue of such acceptance his inventory of work gloves will be in excess of the minimum amount of work gloves required to supply the needs of his employees for a period of 30 days.

(e) Assignment and use of ratings.(1) The War Production Board may as-

sign preference ratings for, or allocate, or direct the delivery of work gloves pursuant to application on Form WPB-541 filed with the nearest Field Office of the War Production Board. The War Production Board, in assigning a preference rating for work gloves may specify that the rating shall be valid only to obtain delivery from a designated manufacturer or supplier; in such case the manufacturer or supplier; in such case the manufacturer or supplier so designated may not reject the order on the ground that he has not in the past accepted or filled orders from that particular class of customer.

(2) No person shall apply, extend or give any effect to any preference rating for work gloves unless the preference rating has been assigned on Form WPB-541, and the order centains the certification required by Priorities Regulation 3 and, in addition, a notation substantially as follows:

This rating was assigned on Form WPB-541
Serial No. \_\_\_\_\_\_
(fill in)

In the case where a specific source of supply has been designated the preference rating form must accompany and be attached to the order.

(The above requirements must be met regardless of Priorities Regulation 3. When this is done the requirements of M-328 are met, and it is unnecessary to

use any other notation.)

(3) No person who is assigned a rating for more than 10 dozen pairs of work gloves may apply it to get any of them at retail prices. This does not prevent purchase at retail of more than 10 dozen pairs of gloves on an unrated order.

(4) Preference ratings for work gloves will be assigned on Form WPB-541 only to persons operating industrial plants, mines or lumber camps and to such other classes of persons as the War Production Board may from time to time designate. Each applicant for a preference rating must show:

(i) That the gloves are desired by the applicant for distribution or sale only to his own employees for use in their occu-

pations.

(ii) That he has in effect or will put into effect the plan approved by the War Production Board to screen his orders and requisitions for work gloves and to eliminate unnecessary and wasteful use of such gloves. The plan will include a provision requiring each employee to turn in a worn-out pair of gloves before obtaining a replacement, and a provision requiring that soiled work gloves be washed or cleaned and used until they are worn-out. The Field Offices of the War Production Board will on request furnish the applicant with a copy of the approved plan and will assist applicants in working out practicable methods of conserving work gloves.

(iii) In the case of hot mill flannel gloves, the applicant must show that the gloves are required for his employees handling hot metals or ladles or other extremely hot materials requiring heavy insulation for handling and for which purposes other types of work gloves may not be practicably substituted. He must show the actual number of his employees so engaged.

(5) Any person to whom a rating has been assigned, applied or extended for work gloves who has difficulty getting his order accepted and filled, may apply by letter to the War Production Board, stating the facts, for a designation of supplier or direction.

(f) Obligations with respect to rated orders. (1) Each person who manufactures work gloves or puts into process materials for the manufacture of work gloves shall in each calendar quarter accept and fill rated orders for leather combination gloves, or set aside for later delivery on rated orders, in a total quantity that shall be not less than 40% of his total production of leather combination gloves. Production for and deliveries on orders of the U. S. Army, Navy, Maritime Commission and War Shipping Administration shall not be included in computing the above percentage.

(2) The War Production Board may from time to time establish minimum quantities of specific types of work gloves that each manufacturer of work gloves

shall be required to produce.

(3) The War Production Board may from time to time establish percentages with respect to the maximum amount of rated orders that each manufacturer of work gloves is required to accept and fill, and the minimum amount of work gloves that each manufacturer must deliver on or set aside for delivery on rated orders.

(g) Appeals. Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provisions appealed from and stating fully the grounds of the ap-

peal.

(h) Reports. Each manufacturer of gloves shall report monthly his production and deliveries of work gloves on WPB Form 3548. This reporting requirement has been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(i) Applicability of regulations. This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board as

amended from time to time.

(j) Violations. Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(k) Communications. All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed in writing, be addressed to: War Production Board, Textile, Clothing, and Leather Bureau, Washington (25), D. C., Reference

1-375.

Issued this 12th day of May 1944.

#### PART 3293—CHEMICALS

[Allocation Order M-340 as Amended May 12, 19441

#### MISCELLANEOUS CHEMICALS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of the chemicals subject to this order for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3293.491 Allocation Order M-340-(a) Definitions. (1) "Subject chemical" means any chemical listed in Appendix A, as therein defined.

(2) "Producer" means any person engaged in the production of any subject chemical and includes a person who imports any subject chemical or has it produced for him pursuant to toll agreement.

(3) "Distributor" means any person who buys any subject chemical for the purpose of resale without further processing and without changing the form thereof.

(4) "Supplier" means a producer or distributor.

(b) Restrictions on deliveries. (1) On and after the applicable effective date stated in Appendix A, no supplier shall deliver a subject chemical to any person except as specifically authorized or directed in writing by War Production Board. No person shall accept delivery of a subject chemical which he knows or has reason to believe is delivered in violation of this order.

(2) Authorization or directions as to deliveries to be made by suppliers in each calendar month will generally be issued by War Production Board prior to the beginning of such month, but may be issued at any time. They will normally be issued on Form WPB-2947 (formerly PD-602) which is to be filed by the supplier with War Production Board as explained in paragraph (g) below.

(3) If a supplier is authorized or directed by War Production Board to deliver a subject chemical to any specific customer or group of customers, but is unable to make the delivery either because of receipt of notice of cancellation or otherwise, the subject chemical shall revert to inventory, and shall not be delivered, or used, without further instructions.

(c) Exceptions for small deliveries. (1) Specific authorization in writing of War Production Board is not required for delivery by any supplier to any person in any calendar month of a subject chemical in a quantity not exceeding the quantity stated in Column 3 of Appendix B.

(2) The aggregate quantity of a subject chemical which any supplier may deliver in any calendar month pursuant to paragraph (c) (1), shall not exceed:

(i) The quantity which he has been specifically authorized, upon application pursuant to Appendix D, to deliver on small orders; or

(ii) If he is a distributor, the quantity which he acquired upon certification that

it was required to fill small orders or the quantity which he acquired himself on such a small order, or

(iii) If he is a distributor who customarily delivers exclusively on small

orders, any quantity.

(d) Exceptions for deliveries for other reasons. Specific authorization in writing of War Production Board is not required for delivery of a subject chemical by any supplier to any other person for a purpose stated in Column 4 of Appendix B.

(e) Restrictions on use. (1) On and after the applicable effective date stated in Appendix A, no supplier shall use a subject chemical except as specifically authorized or directed in writing by War

(3) War Production Board may from time to time issue directions with respect to the use or uses which may or may not be made of a subject chemical to be delivered to, or then in inventory of the

prospective user.

(f) Supplier to obtain from customer a certificate of use. No supplier shall in any calendar month (beginning in the case of each subject chemical with the calendar month in which the order becomes effective as to that chemical as stated in Appendix A) deliver to any person a greater quantity of such subject chemical than is stated in Column 3 of Appendix B, unless he shall have received from such person a certificate as to the use for which such person is ordering such subject chemical. Such certificate shall be substantially in the form and shall be subject to the instructions stated in Appendix C and shall be in the hands of the supplier not later than the 15th day of the month preceding the month in which delivery is to be made. It need not be filed with War Production Board. A supplier must not deliver a subject chemical where he knows or has reason to believe the purchaser's certificate is false, but in the absence of such knowledge or reason to believe he may rely on the certificate

## PART 1340-FUEL

[MPR 120,1 Incl. Amdts. 1-97]

BITUMINOUS COAL DELIVERED FROM MINE OR PREPARATION PLANT

This compilation of Maximum Price Regulation 120 includes Amendment 97, which amendment is effective March 16, 1944 with certain exceptions in §§ 1340.219 (b) and 1340.222 (b) as indicated by notes. The text added or amended by Amendment 97 is underscored with the exception of redesignations, deletions and changes in tables, which are indicated by notes.

In the judgment of the Price Administrator the prices of bituminous coal are threatening to rise to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the prices of bituminous coal prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has deter-mined and deemed to be of general applicability. At the request of the Price Administrator the Bituminous Coal Division, United States Department of the Interior, has cooperated with the Price Administrator in the formulation of the maximum prices established by this regulation in accordance with the arrangement effectuated by the letters, dated March 9 and March 13, exchanged between the Price Administrator and the Secretary of the Interior. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of said act. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.<sup>2</sup>

Such specifications and standards as are used in this regulation were, prior to such use, in general use in the trade or industry affected and have been previously promulgated and their use lawfully required by another Government agency.

[Preamble amended by Am. 62, 8 F.R. 12557, effective 9-11-43]

Therefore, under the authority vested in the Price Administrator, and in accordance with Procedural Regulation No. 1,3 issued by the Office of Price Administration, Maximum Price Regulation No. 120 is hereby issued.

and

(2) That such local shortage will be substantially reduced or eliminated by adjusting the maximum prices of such producer and of like producers for such bituminous coal; and

The provisions of this Maximum Price Regulation No. 120 shall apply, however, to the sale or delivery of bituminous coal to another person who resells the same for use as bunker fuel, even though the resale by such other person may be subject to the provisions of Maximum Price Regulation No. 189, Bituminous Coal Sold for Direct Use as Bunker Fuel, except that, where a supplier of bunker fuel does not have such fuel readily available (in storage or transportation facilities) to fuel a vessel at a particular port, and purchases the same from another bunker supplier who has such fuel available at that port, the sale by each supplier shall be subject to the maximum prices applicable under Maximum Price Regulation No. 189 to a direct sale by the particular supplier to the vessel in question.

(3) All designations or definitions of classifications, price groups, size groups, mine index numbers, mine names, freight origin group numbers, subdistricts, seams, market areas, and other terms used in § 1340.212 to 1340.233 (Appendices A to V, inclusive) and in any order or authority issued under this regulation since May 18, 1942, are, unless otherwise specifically provided, the same designations or definitions of such matters set forth in the schedules of effective minimum prices for the same district, as established by the Bituminous Coal Division and as in effect midnight, August 23, 1943. References to classifications, price groups and size groups in §1340.212 to 1340.233 (Appendices A to V, inclusive) are to classifications, price groups and size groups in the schedule of effective minimum prices for the same district in respect to coal shipped all-rail for general commercial use, unless otherwise specifically noted. Thus, special classifications or size groups in the schedule of effective minimum prices for coal moving to a special use or by a particular method of transportation are not applicable, unless otherwise specifically stated.

In addition to references to minimum prices which were in effect on April 1, 1942, and October 1, 1942, wherever a minimum price is a necessary element in the determination of a maximum price established by this Regulation, then such minimum price as established by the Bituminous Coal Division and effective as of midnight, August 23, 1943, is hereby adopted for such purpose.

[Subparagraph (3) amended by Am. 59, 8 F.R. 11689, effective 8-21-43; and Am. 78, 9 F.R. 573, effective 1-18-44]

(4) Where bituminous coal is delivered from a mine or preparation plant in any

transportation facilities owned or subject to the control of the producer or a distributor or subsidiary or affiliate of the producer or distributor, or in any transportation facilities hired by the producer or a distributor, there may be added to the applicable maximum prices established herein a sum not in excess of the actual transportation costs incurred, determined in a reasonable manner, but in no event to exceed the lowest common carrier rate for a haul between the same points: Provided, That where deliveries are made in river transportation facilities owned or Subject to the control of the producer or distributor, or a subsidiary or affiliate of the producer or distributor, via the Kanawha and/or Ohio Rivers and from mines or preparation plants located in District No. 8, there may be added to the applicable maximum price established herein a sum not in excess of the average charge made by the producer or distributor concerned, or by his subsidiary or affiliate during October 1941 for the same transportation service, or, in the case of a service which was not supplied in October 1941, the offering price therefor in October 1941: And provided further, That there may also be added by a producer or distributor, to the applicable maximum price established herein, an amount not in excess of the transportation tax imposedby section 620 of the Revenue Act of 1942 if said producer or distributor incurred such tax, and if he separately states the amount of the tax in sales to all purchasers except the United States or any agency thereof, the District of Columbia, any state government or any political subdivision thereof.

(5) In the event of the mixture of two or more sizes or classifications of coal to which different maximum prices are applicable, the maximum price for such mixture shall be not more than the weighted average of the maximum prices for each of the component sizes or classifications of coal in said mixture, on a per net ton basis.

(6) Prior to the sale of bituminous coal for which price classifications or maximum prices have not been established, the producer thereof shall file with the Price Administrator an application for specific maximum prices or price classifications, or both. The producer shall state the mine index number, if any, and the classifications, if any, assigned by the Bituminous Coal Division to the mine and coals involved, along with the name, location and mine index number of the nearest mine in the same seam, the coals of which are classified and sold subject to specific maximum prices, along with such classifications and prices. If there is no such mine in the same seam, the same comparative information shall be given for the nearest mine in a substantially similar seam.

For thirty days after filing the application, such coals shall be sold at temporary maximum prices no higher than the maximum prices established by this regulation for the coals which are produced

at the nearest mine in the same seam or in a substantially similar seam and which are classified and sold subject to specific maximum prices. After thirty days from the filing of the application, if no prior action has been taken by the Price Administrator, the classifications and prices as requested in the application shall be the classifications or maximum prices, or both, for such coals.

[Subparagraph (6) amended by Am. 59, 8 F.R. 11689, effective 8-21-43, and Am. 63, 8 F.R. 12933, effective 9-27-43]

(7) If no specific maximum price is established for a particular size of coal, the maximum price therefor shall be determined as follows:

(i) If the particular unpriced size is a lump size, the maximum price shall be not more than the lowest maximum price established for any size of lump coal for the same mine.

(ii) If the particular unpriced size is a double screened, coal, the maximum price shall be not more than the lowest maximum price established for any double screened size of the same mine.

(iii) If the particular unpriced size is a resultant (slack or screening) size, the maximum price shall be not more than the lowest maximum price for any resultant (slack or screening) size of the same mine.

(8) (i) Except as otherwise specifically provided in this section or in §§ 1340.212 to 1340.233, inclusive, (Appendices A to V, inclusive) wherever lump, double screened coal, or minerun coals (and coals of the same size group as mine-run coals) are crushed, the applicable maximum price shall be the maximum price for the size to which the coal is crushed, irrespective of whether the crushing is done by the producer for his own account or for the buyer's account.

(ii) Where a higher maximum price than is above provided for crushed coals is necessary to maintain or increase essential production of resultant screening sizes, a producer may file an application containing the information hereinafter set forth, requesting permission from the Office of Price Administration to sell crushed coal at straight run-of-mine prices. An original and two copies of such application shall be filed with the Office of Price Administration, Solid Fuels Branch, Washington, D. C. Immediately upon such filing, the producer has permission to charge maximum prices for crushed coal as is hereinafter provided. Such permission will terminate for failure to file the monthly reports as required in § 1340,210 (a) (8) (iv), below, or may be terminated at any time in the discretion of the Administrator. On deliveries of bituminous coal made after such filing, (a) where the applicant's lump coals, double screened coals, or mine-run coals (and coals of the same size group as mine-run coals) are mechanically crushed to sizes normally sold by the applicant as screenings, and such resultant sizes are not screened, altered or modified (exclusive of mechanical cleaning or preparation), the maximum price applicable thereto shall be the maximum price for the coal produced at the mine involved which is classified as straight run-ofmine coal; (b) where mine-run coals

(and coals of the same size group as minerun coal) are separated into two or more sizes and only the larger sizes are crushed, the smaller uncrushed sizes shall have the maximum price established under this regulation for the particular sizes involved; but if such smaller uncrushed sizes are re-assembled with the crushed sizes and shipped as re-assembled, the maximum price applicable to such re-assembled product shall be the maximum price for that coal produced at the mine involved which is classified as straight run-of-mine coal.

(iii) Such application shall include, in

affidavit form:

(a) A complete identification of the applicant, including business name and address, mine name, mine index number, and number of producing district;

(b) A statement of the manner in which the requested permission will facilitate the economical and efficient production of slacks or screenings.

- (c) For each month from October 1, 1941 to and including the month prior to the month when the application is filed, a statement of:
- (1) The tonnages of lump coals, double screened coals, mine-run coals (or coals of the same size group as mine-run coals) crushed and shipped in a crusher-run state, without subsequent rescreening, alteration or modification (exclusive of mechanical cleaning or preparation), which were shipped from the applicant's mine during each such month—indicating in each case the specific sizes before crushing and the specific sizes as shipped, the total tonnage of crushed coal shipped during the month and the percentage relation which this total tonnage bears to the total of all shipments of all sizes made during the month;
- (2) The tonnages of each size of coal not crushed which were shipped from the applicant's mine during each such month;
- (3) An estimate of the data specified in (1) and (2) for 30 days subsequent to the actual date on which the application is filed.
- (iv) On or before the 20th day of the month following that in which the application was filed, and monthly thereafter, an original and 3 copies of a monthly report, in affidavit form, containing the information hereinafter set forth, shall be filed with the Solid Fuels Branch, Office of Price Administration, Washington, D. C. Such monthly reports shall contain:
- (a) A complete identification of the reporting producer including business name and address, mine name, mine index number, and number of producing district, and a statement of the date or dates on which the aforesaid application was filed by the reporting producer;
- (b) A statement of why continued permission to sell crushed coal as previously requested is necessary;
- (c) For the month in which the application was filed and for each full month thereafter, a statement of:
- (1) The tonnages of crushed coals which were shipped at prices in excess of the maximum prices applicable to natural screenings of the same top sizes (i. e., screenings not produced by crusher);
- (2) The tonnages shipped of each size of coal not crushed;

- (3) The same details with respect to such tonnages of crushed and uncrushed coals as are called for in § 1340.210 (a) (8) (iii) (c) above; and
- (4) An estimate of the foregoing data specified in (1), (2) and (3) for 30 days subsequent to the actual date on which the report is filed.

[Subparagraph (8) amended by Am. 22, 7 F.R. 7670, 7914, effective 9-26-42 and Am. 59, 8 F.R. 11689, effective 8-21-43]

- (9) The rate of interest on overdue accounts or on a note, trade acceptance or other form of indebtedness accepted in payment of an account shall not exceed the rate charged by the seller on similar transactions during the period of October 1-15, 1941, inclusive.
- [Subparagraph (9) amended by Am. 59, 8 F.R. 11689, effective 8-21-43]
- (10) The charges made for any special service, including (specifically but not exclusively) calcium chloride treatment, specially prepared sizes, split cars (containing more than one size), box car loading, truck loading from pockets at the mine, bags and bagging, and the making of local or retail deliveries from the mine or preparation plant, shall not exceed the charges made for the same service during the period October 1—October 15, 1941, inclusive, except as is otherwise provided in subdivisions (i) and (ii) below.
- [Above paragraph amended by Am. 87, 9 F.R. 1905,-effective 2-23-44]

No person may pay and no person may receive a service charge over the maximum prices otherwise established by this regulation for the services rendered in the obtaining of supplies of coal or in handling shipments of coal by water unless the Administrator grants permission in writing to do so. Provision is made in subdivisions (i) and (ii) below for the obtaining of such permission; subdivision (i) states how and by what persons such permission may be obtained with regard to shipments other than those by lake and tidewater and subdivision (ii) states the same with regard to lake and tidewater shipments.

[Above paragraph added by Am. 87]

- (i) With regard to shipments other than those by lake and tidewater a distributor may obtain such permission where the requirements of (a) below are met by filing two copies of a signed application containing the information required in (b) below with the Solid Fuels Branch, Office of Price Administration, Washington 25, D. C.
- (a) Conditions under which permission to pay a service charge will not be granted. In no event will a service charge be permitted to be paid or received where:
- (1) The distributor is or at any time since May 18, 1942 has been related to the producer or his sales agent directly or indirectly by ownership control or affiliation of any kind.
- (2) In general the tonnage requirements of the person desiring to purchase from the distributor exceed 10,000 net tons per year, or the situation of the customer is such that the services of a distributor are not required.
- (3) The coal to be procured by the distributor will be obtained from the

same mine or the same producer or an affiliate of the same producer as the mine, producer or affiliate which supplied the customer of the distributor at any time since May 18, 1942. This condition shall not, however, be applicable where the customer of the distributor is operating a manufacturing plant which was converted from oil to coal since January 1, 1942 and such customer has since that date been supplied coal by a distributor, or where the customer of the distributor is in New England and is now receiving via all-rail transportation part or all of the coal requirements he formerly received by tidewater or where the customer's requirements are supplied by a distributor under a direction issued by the Solid Fuels Administration for

(b) Information which the distributor's application should contain. A signed application filed in duplicate with the Solid Fuels Branch shall disclose:

(1) The kind, size, tonnage, distributor's f. o. b. mine purchase price of coal which the customer of the distributor needs, the service charge the distributor proposes to make and to which the customer agrees, and the method of shipment of the coal.

(2) A brief statement of the kind, size and tonnage of coal as well as total tonnage purchased by the customer of the distributor since January 1, 1943 from each source of supply together with the name and address of each supplier. The source of supply shall be identified as producer or distributor and by the names, mine index numbers of, and the producing district in which the mines from which the coals are to be shipped are located.

(3) A brief statement as to why applicant's services are necessary to his customer in the proposed transaction.

- (4) A statement from the distributor's customer that it will not base any request for an increase in its maximum price for any commodity or service in whole or in part upon the added cost of the service charge and if customer is a reseller of coal subject to Revised Maximum Price Regulation No. 122 that it understands that the service charge it proposes to pay to the distributor may not be added to its maximum price in the resale of the coal and if customer is a person eligible for compensation under Revised Compensatory Adjustment Regulation No. 1 such service charge shall not be included in the current delivered cost of coal.
- (5) Any other data deemed relevant by the applicant.
- (c) Records to be kept by the distributor receiving permission to make a service charge. If such permission to make a service charge is granted, the distributor making such service charge shall maintain records for the effective period of this subdivision (i) in connection with any transaction on which such a service charge is made. The records shall disclose:
- (1) The distributor's source of coal supply, including the name and address of each supplier, an identification of these suppliers as distributor or producer and the names, mine index numbers of, and the producing district in which the

mines from which the coals are to be shipped are located.

- (2) The tonnage of coal shipped the customer, maximum f. o. b. mine price; the purchase price the distributor paid f. o. b. the mine; the amount and kind of all special service charges made in the sale of the coal by the producer and distributor and the amount of the service charge made by the distributor under the Administrator's authorization granted pursuant to this subdivision (1).
- (d) Permission to pay a service charge of not more than 17 cents per net ton may be granted by the Administrator by letter or telegram with respect to individual transactions on transactions of a continuing nature for either individual distributors or groups of distributors. In all cases the amount of the service charge shall be separately identified in the invoice for the coal.
- [Subparagraph (i) added, former (i) redesignated (ii) by Am. 87, 9 F.R. 1905, effective 2-23-44]
- (ii) The following special rule shall govern the compensation for distributors' service rendered in connection with lake or tidewater shipments of bituminous coal:
- (a) Services rendered by a distributor in connection with bituminous coal shipments by lake or tidewater (e. g. assembling cargoes, chartering vessels, etc.) shall be deemed to constitute special services within the meaning of this paragraph, only if:
- (1) The service charge does not exceed the weighted average of service charges made by him during October 1941 for similar transactions (e. g. for similar f. a. s., or f. o. b. dock or f. o. b. vessel transactions, as the case may be), or (if he had no similar transactions during that month) does not exceed the service charge which has been authorized pursuant to this subparagraph (10) (i) for similar transactions of a competing distributor.
- (2) The distributor has filed with the Office of Price Administration, Solid Fuels Branch, Washington, D. C., two copies of an application for permission to make a service charge for such transactions and has received such permission, and
- (3) The distributor separately identifies in his invoice the amount of the service charge authorized pursuant to this paragraph.
- (b) The Office of Price Administration may approve, reject or modify a service charge proposed in an application filed pursuant to this paragraph (10) (i); approval shall be effective for all similar transactions of the applicant. Such application shall include on a form copied from the sample Form reproduced below:
- (1) The purchase costs (showing discounts, allowances, or commissions), resale prices and service charges in October 1941° for the tonnages involved, such tonnages to be specifically identified by origin, grade, size, and name and address of persons from whom purchased; and the type of transaction (e. g., f. a. s., f. o. b. dock, f. o. b. vessel), and the capacity in which each transaction was handled by the applicant and the person selling to him:

- (2) The weighted average service charge per ton for each type of transaction; and
- (3) A breakdown, for each type of transaction, of the service elements in-

volved in the total service rendered, together with a cents-per-ton allocation, insofar as practicable, of the total service-charge to each such service element:

(11) Any distributor selling smithing coal for shipment direct from the mine to the purchaser may add to the maximum prices established for such coal in this Maximum Price Regulation No. 120 an amount not in excess of the weighted average margin realized by such distributor on similar sales or deliveries of smithing coal during the period October 1 to December 31, 1941. If such distributor made no sales or deliveries of smithing coal during said period then such distributor may use the weighted average margin realized during the next preceding three months' period in 1941 in which such sales were made. Such weighted average margin shall be determined by subtracting the average purchase price f. o. b. mine, weighted by tonnage, paid by such distributor for the smithing coal so sold or delivered by him in the period October 1 to December 31. 1941 from the average sale price, weighted by tonnage, but exclusive of transportation costs, which he received therefor: Provided, That not later than September 7, 1942, each distributor of smithing coal shall report the average margin obtained on sales of smithing coal during the period October 1 to December 31, 1941, determined in accordance with the provisions of this paragraph (a) (11) of § 1340.210 to the Bituminous Coal Division of the Department of the Interior of the United States at 734 Fifteenth Street NW., Washington, D. C.

[Subparagraph (11) added by Am. 11, 7 F.R. 5827, effective 7-27-42; amended by Am. 59, 8 F.R. 11689, effective 8-21-43]

- (12) Any amounts which by order or amendment are permitted to be added to maximum prices cannot be added to Bituminous Coal Division minimum prices which are higher than maximum prices and which may be charged under § 1340.210 (a) (1) or § 1340.226 (b) (1) (i).
- (13) Any purchaser, lessee, or transferee of a mine for which maximum prices or price classifications have been established will take the maximum prices or price classifications previously assigned to the mine or to the seller, lessor, or transferor thereof.

[Subparagraph (12) and (13) added by Am. 73, 8 F.R. 16280, effective 11-29-43]

(14) A producer may receive a direction from the Solid Fuels Administration for War requiring him to rescreen his mine's "resultant coals" to increase production of double screened coals. "Resultant coals", as used in this paragraph (14), refers to coals which were given the same price classification and permitted to be sold at the same minimum price as mine run coals under the minimum price schedules for the respective producing Districts Nos. 1 and 3 through 8, except that, as to high volatile coals produced in Districts Nos. 7 and 8, the term refers also to coals in Size Group No. 17. The rescreening of "resultant coals" will result in an increase in the tonnage of screenings in excess of that normally produced by him at the mine involved in the direction. This paragraph (14) provides a formula for pricing such excess production of screenings for such mines if in any of Districts Nos. 1 and 3 through 8; it is not applicable to screenings normally produced; or to any increased production of screenings resulting from causes other than compliance with the direction, or to a mine in any other District.

If the producer complies with the direction in whole or in part and if compliance requires a change in his screening practices from those in effect at the mine prior to such compliance, the increase in production of screenings may be sold at no more than the applicable maximum price plus an amount necessary to return to the mine the total realization which the mine would have obtained on sale at maximum prices of the original "resultant coals"; except, that where the maximum price for the double screened size is less than the maximum price for the "resultant coals", the latter price shall be the maximum price for both the double-screened coals and the screenings: Provided, That the producer shall have reported the following information to the Solid Fuels Price Branch, Office of Price Administration, Washington 25, D. C. before selling screenings at maximum prices computed under this paragraph (14):

First. The number of the direction of the Solid Fuels Administration for War;

Second. The tonnages of double screened sizes and screenings, if any, shipped from each mine involved in the direction during each of the three calendar months immediately preceding the month in which the direction was received:

direction was received;

Third. The tonnages of double screened coals, apart from the direction, which the producer has committed himself to ship from each mine involved in the direction during the period in which the direction will be effective:

Fourth. An estimated percentage yield of double-screened coals obtainable from the mine's original "resultant coals", along with the top size of such "resultant coals";

the top size of such "resultant coals";

Fifth. The maximum price applicable to the mine's "resultant coals," and to its double screened coals and screenings computed without the benefit of this paragraph (14):

and,

Provided, however, That the producer shall report within 20 days after the end of the effective period of the direction the total tonnages of double-screened coals and the excess tonnage of screenings produced in compliance with the direction, and the amount by which the maximum prices of the latter were increased, and

Provided, further, That the producer, when computing a price for screenings or double screened sizes or both under this paragraph, shall state on his invoice that he has computed his maximum price for the coals involved under § 1340.210 (a) (14) of Maximum Price Regulation No. 120.

[Subparagraph (14) added by Am. 82, 9 F.R. 1181, 2237, effective when the first direction to increase production of double-screened coals is issued by Solid Fuels Administration for War but not later than February 5, 1944 nor before January 30, 19441

[Note: Revised Supplementary Order No. 34 (8 F.R. 12404) permits, under certain conditions, the addition of special packing expenses to maximum prices on sales to procurement agencies of the United States.]

(15) There may be added to the applicable maximum price, the amount of

any sales, gross receipts, gross proceeds or use tax, levied by any statute or ordinance, under which the tax is measured by gross proceeds or units of sale, only if the statute or ordinance permits or requires the seller to state the tax separately and the seller does state it separately on his invoice or other memorandum of sale.

[Subparagraph (15) added by Am. 97, effective 5-16-44]

§ 1340.211 Effective date of Maximum Price Regulation No. 120. This Maximum Price Regulation No. 120 (§§ 1340.201 to 1340.233, inclusive) shall become effective May 18, 1942. [MPR 120 originally issued April 28, 1942]

(b) The following maximum prices are established in cents per ton of 2,000 pounds f. o. b. transportation facilities at the mine or preparation plant from which delivery is made:

(1) Maximum prices in cents per net ton for shipment to all destinations for all uses (including railroad fuel for uses other than locomotive fuel use) and by all methods of transportation, except as otherwise specifically provided in this appendix.

[MPR 121,1 Incl. Amdts. 1-31]

MISCELLANEOUS SOLID FUELS DELIVERED FROM PRODUCING FACILITIES

This compilation of Maximum Price Regulation 121 includes Amendment 31, effective May 16, 1944. The text added by Amendment 31 is underscored.

In the judgment of the Price Administrator the prices of miscellaneous solid fuels are threatening to rise to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has given due consideration to the prices of miscellaneous solid fuels prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability.

In the judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.2

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1.3 issued by the Office of Price Administration, Maximum Price Regulation No. 121 is hereby issued.

1340.250a Effective dates of amendments.

AUTHORITY: §§ 1340.241 to 1340.250a, inclusive, issued under 56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871 and E.O. 9328, 8 F.R. 4681.

§ 1340.241 Maximum prices for miscellaneous solid fuels delivered from producing facilities. On and after May 18, 1942, regardless of any contract, agreement, lease, or other obligation, no person who is a producer or a distributor of miscellaneous solid fuels shall sell or dispose of miscellaneous solid fuels, at or for delivery from a mine or preparation plant operated as an adjunct of a mine

Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

(2) Establishing for him a maximum price, bearing a normal relationship to the maximum prices established for competitive sellers of miscellaneous solid fuels, will not cause or threaten to cause an increase in the level of retail prices of miscellaneous solid fuels.

No application for adjustment filed after November 15, 1942, will be granted under this paragraph (a).

(b) In the case of any seller of miscellaneous solid fuels when it appears:

(1) That there exists or threatens to exist in a particular locality a shortage in the supply of a miscellaneous solid fuel which aids directly in the war program or is essential to a standard of living consistent with the prosecution of the war; and

(2) That such local shortage will be substantially reduced or eliminated by adjusting the maximum prices of such seller and of like sellers for such miscellaneous solid fuel; and

(3) That such adjustment will not create or tend to create a shortage, or

a need for increase in prices, in another locality, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

Each regional administrator is authorized to make adjustments or act upon applications for adjustments under this paragraph (b).

[Paragraph (b) amended by Am. 16, 8 F.R. 6957, effective 5-24-43]

(c) The Office of Price Administration, or any regional office thereof, after clearance with the Solid Fuels Branch in Washington, D. C., may by order grant an adjustment of maximum prices to any producer of a miscellaneous solid fuel, when it is established that the sale of its mine's or plant's entire production at existing maximum prices would not return a realization equal to its total costs of production.

[Paragraph (c) added by Am. 16, 8 F.R. 6957, effective 5-24-43; and amended by Am. 20, 8 F.R. 10358, effective 7-28-43]

(d) In connection with any application for adjustment filed under the provisions of this section, full data on costs, profits, price history and other relevant factors are required. The following forms must be used for filing the required data. § 1340.247b Provision for specific ceiling prices. In establishing prices for solid fuels by an area ceiling order or where prices have been established by such an order issued under § 1340.260 of Revised Maximum Price Regulation No. 122° the Office of Price Administration or any regional office thereof may also establish maximum area prices for deliveries of miscellaneous solid fuels made subject to this regulation from a mine, adjunct preparation plant, briquette plant, or other producing facility, to consumers in the same area and also for services in connection with the preparation of such solid fuels and their delivery. The prices so established may be the same prices as are provided for similar deliveries made subject to Revised Maximum Price Regulation No. 122 or they may be such as will avoid diversions of supply which would disrupt an orderly pattern of distribution of coals in that area and areas nearby.

[Note: Revised Supplementary Order No. 34 (8 F.R. 12404) permits, under certain conditions the addition of extra packing expenses to maximum prices on sales to procurement agencies of the United States.]

(ii) If a mixture of solid fuels is used in the manufacture of briquettes or packaged fuel the increase shall be determined according to the percentage of each solid fuel used in the mixture as computed on OPA Form No. 653-432, herelnafter set forth.

(iii) There must be deducted from the maximum price in effect on November 23, 1943, or as redetermined under this paragraph or former paragraph (d) (4) the exact amount of any decrease actually incurred by a producer in the cost of the solid fuel f.o.b. mine, preparation plant or producing facility, used in the manufacture of briquettes or packaged fuel. Provided however, a producer's maximum price need not be decreased if he incurs a decrease in the cost of solid fuel by reason of substituting a percentage of Pennsylvania anthracite in the mixture of solid fuels used in the manufacture of briquettes or packaged fuel where, prior to November 23, 1943, only bituminous coal fines were used.

[Provice added by Am. 31, effective 5-16-44]

(iv) Each producer whose maximum price in effect on November 23, 1943 has , been increased under the provisions of this paragraph (d) (1) or former paragraph (d) (4) of this section as in effect prior to January 11, 1944, must report his redetermined maximum price and his method of computation on OPA Form 653-432 set forth below. The completed forms must be filed in duplicate with the Office of Price Administration on or before February 29, 1944, or within 30 days after a producer has redetermined his maximum price, whichever period is longer. ## PART I-INSTRUCTIONS

An original and one copy of this report must be filed with the Solid Fuels Branch of the Office of Price Administration, Washington 25, D. C., for each fuel (briquettes or packaged fuel) for which an increase in price is computed as a result of increased costs of solid fuel ingredients. The increase in price as computed on this schedule may be charged immediately after the schedule is filed, and will remain in effect unless later modified.

In Part IIA of this form list the kind and origin of each solid fuel used in making the product. In Columns 1 to 4 identify the solid fuel as to kind (anthracite, bituminous, coke, lignite, etc.), size and origin of the fuel. In Column 5 enter the percent of each kind of solid fuel used in the product; in Column 6 enter the F. O. B. mine or plant price per ton; and in Column 7 the cost of each solid fuel ingredient per ton of product. In Columns 8, 9, and 10 enter the current data for each fuel used in the product.

Note: Changes in solid fuel ingredients used may occur. The ingredients used previous to November 24, 1943, should be listed followed by the fuels used currently.

In Part IIB record the increase, or decrease, permitted by § 1340.249 (d).

In Part III record the increase, or decrease, as it affects the maximum price of the producer for each class of purchaser.

The list of methods of determining the original maximum prices is given below. This list is to-be used in connection with Part III to indicate how your maximum prices were determined.

LIST OF METHODS OF DETERMINING ORIGINAL MAXIMUM PRICES

Under paragraph (a) § 1340.249 of MPR 121, "The maximum price . . . shall be the price specified in the last price circular, list or schedule issued by such person on or before December 31, 1941, and in effect during any portion of the period December 15-31, inclusive, 1941."

(b) Under paragraph (b) "If the maximum price cannot be determined under paragraph (a) . . . the maximum price for the sale of miscellaneous solld fuel . . . shall be the 'average price' charged by the same person during the period December 15-31, inclusive, 1941.

(c) (1) Under paragraph (c) (1) "If the maximum price cannot be determined under paragraphs (a) or (b) the maximum price shall be the price of any other producer or distributor of miscellaneous solid fuel, as specified in any price circular, list or schedulo issued prior to December 31, 1941, and in

effect for any portion of the period December 15-31, 1941, inclusive."

(c) (2) Under paragraph (c) (2) if the maximum price cannot be determined under paragraphs (a), (b) or (c) (1) above, the maximum price shall be the price for the most similar sale of miscellaneous solid fuels.

Other. In addition to these four methods the maximum price may have been determined by an order. (Check Column 7 of

# OFFICE OF PRICE ADMINISTRATION.

Regional and District Office Orders. [Indianapolis Order G-2 Under MPR 154] ICE IN HANCOCK AND SHELBY COUNTIES. IND.

Order No. C-2 under § 1393.8 (e) of Maximum Price Regulation No. 154. Temporary order and opinion adjusting maximum prices for ice sold in Hancock and Shelby Counties, in the State of Indiana.

For the reasons set forth in this order and opinion made pursuant to the provisions of §1393.8 (e) of Maximum Price Regulation No. 154, and by virtue of the authority delegated to the District Director of the Indianapolis District Office of Price Administration, by the Regional Administrator, Region III, under Delegation Order No. 1-A, Revised, It is hereby ordered, That the prices of ice sold in Shelby County and Hancock County, Indiana, be adjusted in accordance with the schedule hereinafter filed and for the reasons hereinafter stated.

Notice has come to this office that the Greenfield Ice Company, heretofore manufacturing artificial ice in the City of Greenfield, Indiana, and making distribution in Hancock County, has definitely decided to cease operations and will not manufacture ice during the year 1944. The manager has stated that he could not afford to manufacture ice at a price of 60¢ per hundred pounds, which is the highest ceiling price for ice that has been granted by the Indianapolis District Office. It appears that an effort has been made to obtain ice from other sources. Two persons, heretofore employed by the Greenfield Ice Company in the delivery of ice manufactured by it, have equipment for ice delivery, if the ice can be procured so that they may operate on the same margin of profit that they secured in delivering it for the Greenfield Ice Company.

One of the parties proposes to secure his supply of ice from the Irvington Ice & Fuel Company, Indianapolis, and the other from the DePrez Ice Manufacturing Company at Shelbyville. Neither of the suppliers has sufficient capacity to meet all the needs of Greenfield. The DePrez Ice Manufacturing Company at Shelbyville has petitioned for a price increase. The prices requested are 60¢ per hundred pounds on cash sales to domestic consumers; 55¢ per hundred pounds on coupon sales to domestic consumers; and 50¢ per hundred pounds on sales to commercial establishments.

<sup>&</sup>lt;sup>1</sup> Filed as part of the original document.

Certain data has been furnished this office which indicates that the cost figures submitted by the DePrez Ice Company will probably justify the granting of a price adjustment, but sufficient information is not yet at hand to make a final determination of the question, and additional time is required to obtain such information.

This office now has under consideration adjustment in the prices of ice in several cities in the State of Indiana, and contemplates the issuance of an area order covering said cities, but has not yet obtained sufficient data and information from which to issue such final order.

The season for the requirement of ice is at hand and a critical local shortage now exists in Hancock and Shelby Counties, in the State of Indiana, and an emergency exists for the granting of temporary relief to said counties until proper maximum prices can be determined. It is therefore believed to be indispensably necessary, to meet the wants of the users of ice in such territory, that an emergency temporary order should be issued immediately, without delay.

It is therefore ordered, By the Office of Price Administration, Indianapolis District, that the maximum prices at which ice may be sold in Hancock and Shelby Counties shall be as follows:

Cents per hundred pounds

Delivered cash sales to domestic consumers 60
Delivered coupon sales to domestic consumers 55
Cash or coupon sales to establishments such as stores or restaurants 50

and that sales in quantities less than 100 pounds shall bear a price proportionate to the 100-pound prices put into effect by this order, or based on prices now in effect, whichever is the higher, and adjusted upward to the next nearest cent.

It is further ordered, That this temporary order shall be effective until June 1, 1944, unless revoked or modified before that time.

It is the opinion of this office that the prices fixed in this temporary order are justified and that the solution here suggested is equitable and in line with the requirements of Executive Order 9328, and that the effect of such order will not result in an inflationary trend, nor tend to create a shortage or need for increase of prices in any other locality.

This order shall become effective immediately.

The above order may be revoked or rescinded at any time.

## SURPLUS WAR PROPERTY ADMINIS-TRATION.

[Reg. 1]

DISPOSAL OF SURPLUS PROPERTY BY FEDERAL AGENCIES

ESTABLISHMENT OF FORMS AND PROCEDURES

Scope of regulation. This first regulation is designed primarily to advise Federal agencies which possess or control property which is in excess of their needs as to the forms and procedures to be followed in declaring such property surplus and as to the relative duties and responsibilities of such agencies and of the disposal agencies with respect to property so declared surplus. It does not deal in detail with the methods and policies to be followed by the disposal agencies, either in redistributing the property to other Federal agencies or in disposing of it elsewhere, nor with the financial and accounting responsibilities of the disposal agencies.

This regulation by its terms is applicable to all Federal agencies and to all property possessed or controlled by them which they determine to be surplus. However, because of the urgency and magnitude of the problems involved in

the disposition of surplus war property of the War and Navy Departments and the Maritime Commission, including termination inventories, this regulation is primarily directed at those problems and is being made effective at this time because of the urgent need for action with respect thereto. This regulation is therefore being made effective at the present time with respect only to surplus war property of the War and Navy Departments and of the Maritime Com-

Other owning agencies will continue practices heretofore existing under Executive Order No. 9235 with respect to the declaration and disposition of surplus property, until such time as this regulation shall be made effective with respect to them. Because of the large number of agencies and the wide variety of types of property involved, the Surplus War Property Administration may vary or supplement this regulation in making it effective in the future with respect to surplus war property of agencies other than the War and Navy Departments and the Maritime Commission.

This regulation shall become effective with respect to surplus war property of the War and Navy Departments and of the United States Maritime Commission on May 15, 1944.

Definitions. As used in regulations of the Surplus War Property Administration, unless otherwise therein stated,

(a) "Agency" means any executive department, independent establishment, agency, commission, board, bureau, division, administration, office, service, independent regulatory commission or board of the Federal Government, and any corporation owned or controlled by the Federal Government.

(b) "Surplus war property" means any property, real or personal, including but not limited to plants, facilities, equipment, machines, accessories, parts, assemblies, products, commodities materials, and supplies in the possession of or controlled by any agency, whether new or used, in use or in storage, which are in excess of the needs of such agency or are not required for the performance of the duties and functions of such agency and which are determined, subject to the authority of the Office of War Mobilization, to be surplus by such agency.
(c) "Owning agency" means the

agency having possession or control of surplus war property at the time when it is determined to be surplus by such

agency.

(d) "Disposal agency" means the agency to which, by this regulation or by other action of the Surplus War Property Administration, surplus war property of a specified class is assigned for disposition.

(e) "Administration" means the Surplus War Property Administration established by Executive Order No. 9425

dated February 19, 1944.
(f) "Continental United States, its territories and possessions" shall include Alaska, Hawaii, Puerto Rico, the Philippine Islands, the Virgin Islands and the Panama Canal Zone.

I. Designation of disposal agencies-A. Procurement Division, Treasury Department. There is hereby assigned to the Procurement Division of the Treasury Department for disposition all surplus war property of the classes set forth under its name in Exhibit I to this regulation. Such classes of property are herein called consumer goods and are the only classes of property which the Administration deems it feasible so to assign.

B. Reconstruction Finance Corporation. There is hereby assigned to the Reconstruction Finance Corporation for disposition all surplus war property of the following classes:

(1) All industrial real property of every character other than that disposed of under part IC, TE or IF hereof, including buildings and fixtures.

(2) Such personal property, including machinery and other equipment, materials, and products finished or in process as are reported as surplus to Reconstruction Finance Corporation by the owning agency as an integral whole in conjunction with the plant or other real property where they are located, and as should in the judgment of Reconstruction Finance Corporation be disposed of as a unit. If not so disposed of, such personal property is hereby assigned to the disposal agency otherwise appropriate hereunder.

(3) The classes set forth under its name in Exhibit I to this regulation.

The foregoing classes of property are herein called capital and producers' goods. In disposition, Reconstruction Finance Corporation may act directly or through any of its subsidiary corporations, created pursuant to section 5d (3) of the Reconstruction Finance Act, as amended, designated by it. Except as above stated, the Administration does not deem it feasible to assign property for disposition to a subsidiary of Reconstruction Finance Corporation.

C. United States Maritime Commission and Navy Department. There is hereby assigned to the Maritime Commission for disposition all surplus war property of

the following classes:

(1) Shipyards, repair yards, marine terminals and similar marine real property including buildings and flxtures. If, however, the Maritime Commission shall determine that any such property should not be disposed of for the purpose of making it available for use in connection with building, repair, or operation of ships, such property shall constitute industrial real property and be assigned to Reconstruction Finance Corporation.

(2) Such personal property, including machinery and other equipment, materials and products finished or in process as are reported as surplus to the Maritime Commission by the owning agency as an integral whole in conjunction with the maritime real property where they are located, and as should in the judgment of the Maritime Commission be disposed of as a unit for maritime use. If not so disposed of, such personal property is hereby assigned to the dis-

posal agency otherwise appropriate hereunder.

(3) The classes set forth under its name in Exhibit I to this regulation, except as set forth in the next succeeding paragraph.

The foregoing classes of property are herein called ships and maritime property. The Administration does not deem it feasible to assign to the Maritime Commission, and therefore assigns to the Navy Department, for disposition (a) ships under the cognizance of the Navy Department which fall into the categories of combat ships or naval auxiliaries, other than those based on commercial designs or susceptible of commercial usage, and (b) such property of classes set forth under the name of the Maritime Commission in Exhibit I to this regulation as appertains to or forms an integral part of a ship disposed of by the Navy Department.

D. War Food. Administration. There is hereby assigned to the War Food Administration for disposition all surplus war property of the classes set forth under its name in Exhibit I to this regulation. Such classes of property are herein called food and are the only classes of property which the Administration deems it feasible so to assign.

E. National Housing Agency. There is hereby assigned to the National Housing Agency for disposition all surplus war property of the class of housing property (including such community facilities financed through the Federal Works Agency as are located on the sites of housing projects) other than that under the control and jurisdiction of the War Department or the Navy Department.

F. Federal Works Agency. There is . hereby assigned to the Federal Works Agency for disposition all surplus war property of the class of community facilities financed through such Agency, other than those located on the sites of housing projects.

G. Foreign Economic Administration. There is hereby assigned to the Foreign Economic Administration for disposition all surplus war property, of whatsoever nature, located outside the continental United States, its territories and possessions.

H. Property unassigned. Surplus war property not covered by the foregoing assignments, including in particular real property not covered by parts IB, IC, IE and IF, will be assigned by subsequent regulation. Pending such regulations owning agencies are authorized to exercise existing powers of disposition, keeping the Administration currently advised of their plans, policies and procedures with respect to such disposition.

I. Exceptions. There is excepted from the foregoing assignments all surplus war property of which, by part III of this regulation or by other regulation or policy statement of the Administration, owning agencies are authorized to make disposition.

J. Transfers. By arrangements authorized or approved by the Administration, property initially assigned to one disposal agency hereunder may be reassigned to another for disposition.

II. Procedures for reporting pluses-A. Property to be reported. Ex-

cept as to unassigned property and surplus war property of which, by part III of this regulation or by other regulation or policy statement of the Administration, owning agencies are authorized to make disposition, all property of any agency which is determined by such agency to be surplus, as provided in Executive Order No. 9425, shall be reported as herein set forth.

B. When reports filed. All such surplus war property will be reported as herein set forth immediately upon the determination by the owning agency that such property is surplus.

C. Where reports filed—(1) property. (a) All surplus real property assigned in part I of this regulation, including plants, buildings and fixtures, will be reported to the disposal agency designated in part I for the disposition thereof. Reports to the Maritime Commission will be reported to the appropriate office of that agency listed in Exhibit II to this regulation. Reports to any other disposal agency for real property, including Reconstruction Finance Corporation, will be sent to its central office in Washington, D. C.

(b) In reporting as surplus real property, or properties comprising both realty and personalty which, in the judgment of the owning agency, can best be disposed of as an integral whole, the owning agency shall submit for each unit a completely itemized and descriptive inventory docket within which the personal property involved shall be fully described and listed in conformity with the major groups (two digits) of the Standard Commodity Classification set forth in Exhibit I to this regulation. Brief preliminary reports, presenting the major characteristics of such properties, should be submitted as far in advance of their actually becoming surplus as is possible.

(c) Whenever a property unit comprising both real and personal property has been reported pursuant to paragraph (b) above, and the disposal agency for the real property determines that any of the personal property can best be disposed of separately, such disposal agency will report such personal property to the disposal agency designated

therefor under part I.

(2) Personal property—(a) Where reports filed. With the exception of personal property included in reports of real estate under paragraph 1 (b) above, all surplus personal property will be re-ported to the appropriate office of the disposal agency designated therefor in part I, for the region in which the property is located; Exhibit II to this regulation lists all such offices and the regions covered by them; Provided, however, That where it proves impracticable to make a sufficiently complete segregation of the various classes of property involved in termination inventories or supply property of the Army or Navy to permit the reporting of each such class to the proper disposal agency, this regulation shall be deemed to be complied with if termination inventory property is reported to the appropriate regional office of Reconstruction Finance Corporation and supply property to the appropriate regional office of the Procurement Division of the Treasury Department, where any necessary segregation and forwarding to another disposal agency will take place; all such reports shall nevertheless comply with the requirements of paragraph 2 (b) below. Pending further regulations, reports of surpluses located abroad shall be made to the central office of the Foreign Economic Administration in Washington, D. C., or elsewhere as agreed upon by that administration and the owning agency.

(b) Forms. All reports of surplus war property which is personal property shall, except as set forth in part II C (1) (b), be made on Forms SWPA-1 and SWPA-1 (a) set forth in Exhibit III to this regulation. Such forms shall be used in the manner set forth in the instructions forming a part of such Exhibit.

III. Responsibilities of owning agencies—A. Maintenance of inventories.
Owning agencies are urged to establish as promptly as practicable and maintain currently their inventory records in accordance with the Standard Commodity Classification described in Ex-

B. Determination of surplus. Each owning agency will determine what property in its possession or control is surplus, until and unless the Office of War Mobilization shall exercise the applicable authority referred to in Executive Order No. 9425. Particularly during the current phase of the war, owning agencies are urged to exercise the utmost diligence in ascertaining the existence of surpluses and declaring them promptly for disposition. Accordingly, it shall be the responsibility of each owning agency to hold only such property as may be essential for the prosecution of Through agency proits programs. cedures inventories shall be reduced to these required levels by declaring as surplus all unneeded items not hereby authorized to be sold by the owning agency.

C. Sales by owning agencies. To the extent that surplus war property coming within the scope of this regulation is involved therein, owning agencies are authorized to dispose, or authorize contractors to dispose, of property without declaring it as surplus, in the following situations, to the full extent that such disposition is provided for or permitted by law:

(1) Termination inventories. Termination inventories may be disposed ofduring the course of the termination proceedings, in accordance with the policies set forth in the Administration's letter to the major procuring agencies and Statement of Policies to be Followed by Government Agencies in the Sale of Contract Termination Inventories, both .dated April 21, 1944.

(2) Nominal quantities. Owning agencies may sell single items or groups of items, when the cost of all substantially similar items which are surplus at any one location does not exceed \$1,000.

(3) Scrap and salvage. Pending the issuance of specific regulations governing scrap sales of property other than termination inventories, property which

is damaged beyond economical repair. and waste, scrap, salvage and other comparable items, may be sold by owning agencies. Such sales shall be made in conformity with the policies and procedures set forth in part IV of the Administration's Statement of Policies to be Followed by Government Agencies in the Sale of Contract Termination Inventories, dated April 21, 1944, where applicable, or in conformity with established salvage procedures or manuals of the owning agencies, if such procedures or manuals have been filed with the Administration. Sales of scrap by owning agencies shall be reported to the appropriate regional office of Reconstruction Finance Corporation (whether or not such scrap constitutes termination inventory) in such manner and at such times as that corporation shall direct. That corporation shall promptly advise the Administration of any situation in which scrap sales in any area are at such unsatisfactory price levels that sales should be stopped. That corporation shall likewise, at the earliest possible moment, provide a system of local or regional consultants upon whom the representatives of the owning agencies can call for advice and assistance on questions concerning the scrapping of property and the marketing of scrap.

(4) Property located outside the United States—(a) In active theaters of operation. Military and naval commanders in active theaters of operation may sell or otherwise dispose of any surplus prop-

erty within their control.

(b) General. Owning agencies, pending further regulations, may sell surplus property in localities outside the continental United States, its territories and possessions where the Foreign Economic Administration has no local representative, and in localities in the territories and possessions of the United States where the appropriate disposal agency has no local representative.

(5) Advance clearance. Where special circumstances, such as danger of deterioration or sanitary or other hazard, make immediate sales by owning agencies desirable without surplus declaration, advance clearance may be obtained from the Administration or such agency as it may designate for the purpose.

D. Reports to disposal agencies—(1) Regional basis of reporting. Owning agencies will establish and maintain such organizations and procedures as are necessary to enable them to make reports of surplus property to the disposal agencies on a regional basis, in accordance with the procedures established in part

II of this regulation.

(2) Withdrawal of property reported. After reporting property to a disposal agency, the owning agency will hold the property subject to disposition instructions from the disposal agency. When property has been reported as surplus, the disposal agency shall thereupon have the exclusive right and obligation to make disposition thereof for the United States. Where unforeseen circumstances arise, however, the owning agency may, with the consent of the disposal agency, withdraw such property for its own use

or other disposition prior to its disposition by the disposal agency.

(3) Limitations on power of disposal. Owning agencies will accompany each report of surplus with a statement clearly indicating what, if any, legal restrictions exist as to their power to dispose of the property in question. In the absence of any such statement, disposal agencies shall conclusively assume that they have unrestricted power to dispose of the property for the United States, subject to the applicable regulations of the Administration.

E. Storage, packing and shipping-(1) Future policy. The Administration recognizes the desirability of having a single responsibility for both the sale and the storage, packing and shipping of each class of surplus property. Manpower and facilities shortages prevent this from being effected at the present time. Every effort will be made, however, to provide for the requisite transfer from owning to disposal agencies as soon as these conditions permit, and certainly at some stage between the ending of the first phase of the war and conclusion of the war.

(2) Present operations. (a) The owning agency will provide storage for property reported to the disposal agency pending removal or disposal by the disposal agency. At the request of the disposal agency the owning agency will permit reasonable inspection of the property. Upon receipt of shipping instructions from the disposal agency, the owning agency will prepare the property for

shipment and will ship in accordance with such instructions.

(b) Pending further regulations, accountability for surplus property will pass to the Procurement Division of the Treasury Department, as to property assigned to it under part I of this regulation, to the same extent and in the same manner as has heretofore been the case under Executive Order 9235, but accountability for all other surplus property will remain in the owning agency until the property is delivered upon the order of the disposal agency.

IV. Responsibility of disposal agencies—A. Disposal. Disposal agencies shall have the exclusive right and obligation to make disposition, subject to the regulations of the Administration, of all property declared to them as surplus. They shall conclusively assume. unless otherwise notified by the owning agency, that property declared as surplus by an owning agency is property of the United States and that they have unrestricted power to dispose thereof for the United States, subject to the applicable regulations of the Administration. The exclusive responsibilities of disposal agencies shall include determining methods of sale, identity of purchasers and price, execution of all necessary documents in connection with disposal, including any necessary documents of title, and the collection and proper treatment of all proceeds. The military agencies, if they so request in conjunction with the report of surplus, will be consulted prior to the sale of any

tactical equipment reported by them.

B. Inventories. Disposal agencies will establish and maintain, in each region in which they receive reports of surplus. inventories of all surplus war property reported to them. Such inventories will be maintained in accordance with the Standard Commodity Classification described in Exhibit I.

C. Storage, packing and shipping. Disposal agencies will proceed as promptly as is practicable so to organize their activities and personnel as to carry out the policy set forth in part III E (1)

of this regulation.

V. Interagency cooperation. While there shall be strict adherence to the basic principle of Executive Order No. 9425 that there shall be a single disposal agency for each class of property, disposal agencies will make use, to the extent practicable, of facilities of other agencies which can assist them in their task, and will in turn, through the organization of regional consultants and coordinating and advisory committees and otherwise, render all possible assistance to owning agencies in connection with dispositions made by or under the authority of the owning agencies. Conversely other agencies will make available to the disposal agencies all assistance and facilities which the disposal agencies may reasonably request.

VI. Sales policies. All sales of surplus war property, whether made by disposal agencies or by or under the authority of owning agencies, will be made in accordance with the policies, regulations or directions of the Administration or, with its authority, of the disposal agencies. In the absence of specific directions, such as those heretofore issued with respect to sales of termination inventories, sales may be made in such manner as the selling agency shall deem advisable, adhering to the primary principle that a reasonable test of the market, having due regard for the nature, condition, quantity and location of the property, is a necessary prerequisite to any sale.

VII. Accounting procedures. Pending specific regulations on the subject, accounting and fiscal procedures and practices of the disposal agencies shall be conducted by the disposal agencies in such manner as they deem appropriate in order to conform to existing laws and

regulations.

VIII. Redistribution within Government. Disposal agencies will so organize their activities that information as to the availability of surplus war property will at all times be readily obtainable by all agencies. Information as to stocks will be interchanged between offices of the disposal agencies in order that large quantities of scarce items reported in one region may be made available to other regions for distribution, where appropriate. Pending the issuance of more specific instructions, both the procuring agencies and the disposal agencies will take all practical steps to assure as full utilization within Government of available surplus property as is consistent with (a) the nature of the item. (b) timely procurement by the procuring

agencies, and (c) prompt disposal by the disposal agencies.

#### WAR FOOD ADMINISTRATION.

Commodity Credit Corporation.

DAIRY PRODUCERS

OFFER TO MAKE PRODUCTION PAYMENTS

In an effort to maintain and increase the production of Eligible Dairy Products, the War Food Administration through Commodity Credit Corporation (herein called "Commodity"), a corporate agency of the United States, pursuant to announcement heretofore made, hereby offers to make dairy production payments to eligible producers for the period beginning May 1, 1944 and ending March 31, 1945, all in the manner and subject to the terms and conditions specified in this offer, such payments being intended to offset increases, since September 1942, in the cost of milk production.

1. Eligible producers. Payments under this offer shall be available, upon compliance with the terms and conditions specified herein, to the following (herein called "eligible producers"): (a) Dairy farmers who sell eligible dairy products during the terms of this offer: and (b) distributors and processors of eligible dairy products in respect of eligible dairy products produced from their own herds during the term of this offer.

2. Eligible dairy products. The term "eligible dairy products", as used herein, shall mean whole milk, butterfat, butter, and cream produced in any of the 48 States of the United States or the District of Columbia by the eligible producer who applies for payment hereunder in respect thereof, but shall not include goat's milk or goat's milk products.

3. Rates of payment. The rate of the payment hereunder shall be that specified in Schedule A, attached hereto and by this reference made a part hereof, as applicable to the period covered by such payment for the area in which the farm on which such eligible dairy products

were produced is located.

4. Measure of payment. Payments in respect of eligible dairy products, pursuant hereto, shall be based upon the quantity of whole milk or butterfat: (1) Produced by eligible producers and sold by them; or (2) in the case of eligible producers who are distributors or processors handling also dairy products produced by others, produced from their own herds, during the period covered by the application for payment. For the purpose of any such payment for the period covered by the application for payment: (a) The quantity of whole milk shall be rounded to the nearest hundredweight; (b) the quantity of butter shall be converted to pounds of butterfat on the basis of eight-tenths (0.8) pound of butterfat per pound of butter: (c) the quantity of cream sold (or in the case of eligible producers who are processors or distributors, earmarked) for consumption as cream shall be converted to pounds of butterfat on the basis of fourtenths (0.4) pound of butterfat per quart of cream; (d) the quantity of butterfat shall be rounded to the nearest pound; and (e) the quantity of milk sold by liquid measure shall be converted to pounds of whole milk on the basis of 2.15 pounds per quart. To the extent that eligible producers deliver whole milk and do not recover their skim milk, payments hereunder shall be made on the basis of the applicable whole milk rates regardless of the basis on which they are paid for their product. To the extent that eligible producers deliver cream or butter, or deliver milk as whole milk and recover their skim milk, payments hereunder shall be made at the applicable butterfat rate.

5. Prerequisites to payment. This offer shall be deemed to be accepted by. and payments hereunder will be made to, eligible producers who: (a) File applications for payment, in such form as shall be approved by Commodity, with the County AAA Committee in the county in which the eligible dairy products covered thereby were produced not later than sixty (60) calendar days after the last calendar day of the payment period for which the application for payment is submitted and during which the eligible dairy products, for which the application for payment is submitted, were produced (the respective payment periods shall be designated by the Agricultural Adjustment Administration), and (b) supply, with such applications for payment, evidence satisfactory to such County AAA Committee with respect to their eligibility, compliance with this offer, and the proper amounts of such payments. Milk statements or sale receipts issued by cooperatives, dairies, creameries, and others, showing the amount of whole milk or butterfat purchased, the date of purchase, and the names of the seller and buyer will be considered satisfactory evidence of sales. If an eligible producer is unable to furnish satisfactory extrinsic written evidence of sale, his personal certification of the amount sold, number of cows milked, amount and type of feed used, and customers served, may, in the discretion of the County AAA Committee, and subject to such rules as Commodity prescribes, be accepted as sufficient if such certification is consistent with the County AAA Committee's knowledge of the eligible producer's business and is made in accordance with rules as prescribed by Commodity. In the event an eligible producer is also a distributor only of eligible dairy products produced by him, sales of eligible dairy products in the course of such distribution may be totaled for the purpose of recording on the application for payment.

6. Payment. Payment hereunder, on the basis of each such application for payment which has been approved by the applicable County AAA Committee, shall, unless Commodity prescribes a different method of payment, be made by such County AAA Committee by a noninterest-bearing draft drawn on Commodity and payable at any Federal Reserve Bank or branch thereof. If the amount of payment to which the eligible producer would otherwise be entitled, as computed by the County AAA Committee, is less than one dollar (\$1.00), no payment shall be made. Such draft shall be made payable to the person shown in the corresponding application for payment to be the eligible producer, except in the case of death, incompetency, or disappearance of such person. Each draft shall be given a serial number and shall be prepared in duplicate. The original thereof shall be delivered to the eligible producer and the copy retained in the County AAA office. The making of any payment on the basis of an approved application for payment filed hereunder shall not constitute final acceptance of the validity or amount of the claim represented thereby. In the event of a subsequent finding that any such claim is invalid, defective, or incorrectly computed, Commodity shall have the right to require restitution of any such payment or any part thereof, such right being in addition to any and all other rights of Commodity in the premises.

7. Assignment and set-off. Payments due or to become due hereunder shall not be assignable in whole or in part. Payments hereunder shall be subject to set-offs for indebtedness of the eligible producer to United States of America or any agency or corporation thereof recorded on any County AAA office debt register and this offer is expressly made subject to such provision for set-offs.

8. Death, incompetency, or disappearance. In case of death, incompetency, or disappearance of an eligible producer, application for any payment hereunder may be made by any person who, under the regulations contained in Agricultural Adjustment Administration Form ACP-122, would be entitled to payment. In any such case, the person filing the application shall execute Agricultural Adjustment Administration Form ACP-103 and file such executed form, attached to the application for payment hereunder. with the County AAA Committee.

9. Lost, stolen, or destroyed drafts. In the event any executed draft shall be lost, stolen, or destroyed the fact of such loss, theft, or destruction shall be reported immediately to the office of the applicable County AAA Committee and, in such event, the issuance of a duplicate draft shall be subject to such conditions as Commodity shall, from time to

time, prescribe.

10. Right to declare applications for payment invalid. Commodity, acting through the applicable County AAA Committee, or otherwise, shall have the right to declare invalid, in whole or in part, any application for payment hereunder in the event the applicant does not qualify as an eligible producer hereunder or such application for payment is not in conformity with this offer.

11. Instructions and interpretations. Commodity shall have the right to supplement or clarify any provision or provisions of this offer or alter any procedure contained herein at any time by the issuance of instructions or interpretations in connection therewith.

12. Revocation or amendment. Commodity may amend or revoke this offer at any time, but no such amendment or revocation shall be applicable to eligible dairy products produced prior to the effective time of such amendment or revocation.
